for automatic issue of pre-printed wait tickets  
for rolls with 3000 tickets  
**automatic ticket cut-off system and output shaft**

Numbers issued and end of ticket roll reported to control consoles  
Facilities for limiting the number to be issued per day  
Automatic switch-on and switch-off possible at specific times

**Robust metal casing**, lockable, for mounting on wall  
Standard colour: silver grey/black,  
Weight approx. 5 kg, dimensions: W 200 x H 336 x D 58 mm

### *Wait Ticket Dispenser WM 923*

Like WM 921 but **3 requirement buttons**

## ***Wait Ticket Dispenser WM 921A***

like WM 921, but only power supply by ARAS paging system  
no data transfer with the paging system

Extendable to WM 921 (with data transfer to ARAS paging system)

## ***Wait Ticket Dispenser WM 921B***

like WM 921, but **individual operation with batteries**  
no connection and no data transfer to the paging system  
therefore no cable necessary

with power-saving program for long-term operation  
(approx 10.000 tickets per set of batteries)

Including batterie (optionally with accumulator batterie possible)

## ***Wait Ticket Dispenser WM 921N***

like WM 921, but **individual operation with seperate mains adaptor**  
no connection and no data transfer to the paging system

Extendable to WM 921 (with software to ARAS paging system)

## ***Mains Adaptor NT 500***

for WM 921N  
with 230 V plug and modular (western) plug

## ***Roll of Wait Tickets WR 920***

Roll with **3000 tickets, 3x 000 - 999**  
35 x 50 mm, strong paper **140 g/m**  
Choice of **5** different ticket **colours**  
incl. standardtext

Options: print design as required  
propaganda at the back  
other numbers, e.g. 6x 500-999

## ***Column ST 962***

for all wait ticket dispensers WM 921 and WM 923  
for mounting on the floor  
metal, standard colour: silver grey

Alterations to incorporate recent technical developments reserved  
07/03
